

Amdo Eye Center

**Qinghai Wosai Cataract Treatment Center
Xining, Qinghai: December 2008**

Progress photos of the actual building December 2008

1 Main Lobby

The Main Lobby: This is being built to create a relaxing feeling for the patients.

2 Stairway to second floor from Main Lobby

The stairway is being built using modern architecture with robust stairways and commercial floor sealants, to make the stairways easily cleanable and able to withstand constant foot traffic.

3 A view into one of the main treatment rooms

4 Second floor hallway to various treatment rooms

The clean white hallways give the hospital a feeling of confidence. The staff can easily keep the hospital clean and health.
